

Carl Moyer Program Advisory: 07-005

Electronic Monitoring Unit Installation Requirement for Marine Vessels

This page updated December 10, 2007

This advisory provides guidance on the requirement that electronic monitoring units (EMU) be installed on marine projects funded using the 2005 Carl Moyer Program Guidelines. Carl Moyer Program Advisory 06-001 waived the EMU requirement for Year 8 (Fiscal Year 05-06) funded marine projects. This advisory extends that waiver to Year 9 (Fiscal Year 06-07) and Year 10 (Fiscal Year 07-08) funded marine projects. However, districts retain the option to require EMU installation on Carl Moyer Program marine projects.
